

Environmental policy

Our commitment to reducing GHG (greenhouse gas) emissions

Reducing our electricity consumption at constant turnover
Increasing the proportion of renewable energy in our energy mix by 2030:

Switching to 50% renewable electricity
Switching to green gas to heat our workshops
Recovering waste heat from air compressors to heat part of our industrial site
Renewing our fleet with 100% electric or hybrid vehicles

Our commitment to waste management:

Reducing the generation of waste in our offices and workshops with:

Re-use of packaging
Reasonable use of paper cups and plastic bottles
Use of 100% recycled cardboard by 2026
Use of 100% recycled paper by 2025

Waste collection and sorting:

100% of waste sorted, recycled or recovered by 2025
100% of our PPE (personal protective equipment) collected and recovered by 2026

Our commitment to protecting biodiversity

Limiting night-time light pollution by keeping our car parks dark

Welcoming pollinators:

Limiting the mowing of our green spaces
Planting vegetation of different sizes with flowering to be spaced out over time
Setting up an apiary

I confirm that I comply with Paris-Savoie Industries' environmental policy which includes the following fundamental principles:

1. We strive to reduce the ecological impact of our products.
2. We comply with applicable environmental rules and regulations.
3. We apply our environmental objectives and make operational improvements.
4. We promote environmental awareness within the company and our supply chain.
